

Learning Support Coordinator 2026 Role Description

Background

In 2019 the Government announced funding of \$217 million over four years to establish the first tranche of around 600 full-time equivalent Learning Support Coordinators (LSC) in schools and kura from 2020. The Government also intended that there would be further tranches to progressively roll out LSC coverage to all schools.

Budget 2025 provides \$192.5 million so that all state and state integrated schools and kura with Year 1 to 8 students get access to a Learning Support Coordinator. This cohort joins the 600 LSCs already working across the motu. The increase in around 650 FTTE will enable improved identification of, and response to learner needs. This will be phased in over three years – 2026, 2027, and 2028.

This investment is about bringing learning supports closer to children and young people. It is expected to benefit approximately 1,250 schools and 300,000 learners that were not part of the initial rollout.

Having LSCs in every school with Years 1 – 8 students will contribute to primary and intermediate aged students having their learning support needs identified and responded to earlier, teachers feeling more confident and supported to identify and respond to needs, and families being better informed about learning support at their schools.

The Ministry of Education (the Ministry) delivers learning support services through a collaborative approach that spans early learning, schools, and kura. This approach draws on international best practices and successful New Zealand models, emphasizing the importance of flexibility and responsiveness to local communities. It enables teachers, other professionals, parents, and the wider community to work together to identify children's learning needs, plan effective support strategies, and access services through a shared network across agencies and external providers.

This role description sets out the core purpose, focus and functions for the 2026 in-school iteration of the LSC role. Local settings in which the role operates, and the needs of learners will influence how the functions are carried out in the local context and over time.

Purpose of the Role

The purpose of LSC role is to ensure children and young people with disability and additional learning needs have access to the services they need. They will substantively contribute to a collaborative approach that organises learning support around what best meets the needs of children and young people within a school or kura. They will help simplify the current learning support system, particularly for the key stakeholders that interact with it, including parents and whānau.

Learning Support Coordinator: 2026 Role Description

Role Description

Learning Support Coordinators (LSCs) will strengthen teachers' capability to support all learners by identifying and planning for diverse learning needs. While not a teaching role, it requires experienced educators who can effectively engage with teachers to enhance inclusive practices.

LSCs will collaborate with regional Ministry teams to build school-wide capability, connect with specialist services (e.g., Resource Teachers, external agencies, and community organisations), and work alongside colleagues such as gifted coordinators, SENCOs, and other professionals.

An LSC is a critical, influential role in a school leadership team who brings strong capability in building and maintaining relationships both internally and in the community they serve.

Role Requirements

A Learning Support Coordinator will be a registered teacher with a current teaching practising certificate and relevant teaching qualification, and have:

- » demonstrated successful experience in working with and including children and young people with learning support needs in the classroom
- » an ability to build and maintain strong relationships with parents, whanau and communities
- » an ability to engage at a school or kura leadership level
- » influencing skills at a working level within a school or kura
- » an ability to provide culturally responsive support that protects the principles of Te Tiriti o Waitangi.
- » met professional standards relevant to their current position.

Role Functions

The functions of the LSC role have been grouped so that they focus on five key groups of stakeholders to meet learning support needs ...

- » support students through building a school or kura that meets the needs of all learners.
- » support kaiako/teachers in schools and kura to lift their capability to better meet the needs of learners, and to strengthen their connections with early learning services;
- » support for parents and whānau to partner successfully with their school or kura and develop an understanding of learning support processes and who to contact if needed;
- » work with other LSCs, and connect with regional Ministry teams and wider agencies, to access services and resources to support learners
- » work with and influence the school or kura leadership team to ensure all students receive the appropriate support to enhance their learning and progress.

While the LSC role will focus on all five stakeholder groups, how many and how much of the associated functions are undertaken by the LSC will depend on the needs and context of the schools, kura, ngā kōhanga reo, and early learning services.

Learning Support Coordinator: 2026 Role Description

| Stakeholder focus | Function |
|---|--|
| Support students through building a school or kura that meets the needs of all learners. | <p>Supports schools or kura to meet the needs of all learners;</p> <p>Provides support to classroom teachers, other professionals and parents to identify student's needs early and respond in a timely manner with the right support;</p> <p>Provides support to individual students or groups of students when targeted or tailored supports are needed;</p> <p>Ensuring relevant records are kept up-to-date, and used regularly by authorised staff to respond to and plan for student needs (Information sharing and privacy protocols must be followed);</p> <p>Supports kaiako/teachers to ensure that students receiving specialist support have an individual learning plan;</p> <p>Creates systems and provide support for transitions for learners from early learning into school, between year levels, and into secondary school.</p> |
