

# Shotover Primary School

## Examples of how the Additional Entitlement to Enrol arrangement (grandparenting) would work.

The Ministry is considering an Additional Entitlement to Enrol arrangement, commonly known as 'grandparenting' for Shotover Primary School. These scenarios are provided to help show how grandparenting will work in practice. Please note these are not real family examples – created only to demonstrate how the grandparenting clauses work.

Note – the time of enrolment refers to the time the new student will start school and begin attending. Most families complete enrolment forms ahead of this time, in anticipation of attending. This is an intention to enrol, but enrolment does not start until the time the student is ready to start attending school.

### Scenario 1 – Shotover Primary School family currently living in an area that will be removed from the current scheme

Family A lives in Morven Ferry Road. They have a son – Jack – enrolled at Shotover Primary School in Year 3. They also have a 4-year-old daughter, Hannah, who will be starting school in March 2027.

To determine if grandparenting applies, Family A will have to be able to answer 'yes' to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Shotover Primary School	Yes – Hannah lives in Morven Ferry Road which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Shotover Primary School at the time the amended enrolment scheme was implemented (expected to be end -2026 – exact date to be confirmed)	Yes – Hannah's sibling Jack was enrolled at Shotover Primary School at the beginning of 2027.
The sibling already enrolled at Shotover Primary School, at the time the amendment is implemented (expected to be end-2026) lives inside the home zone as it was <b>before</b> the amendment	Yes – Jack lives at Morven Ferry Road which is inside the home zone as it was in end-2026 before the amendment.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	Yes – in March 2027 when Hannah enrolls (ie starts school), she is living in Morven Ferry Road which was part of the home zone before the amendment.
Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?	Yes – Jack will be Year 4 in 2027 and will still be attending Shotover Primary School when Hannah enrolls in March 2027.

In this case, grandparenting will apply – as Family A can answer ‘yes’ to all questions.

Hannah could also enrol at Arrowtown School, as she lives in the home zone for this school.

## Scenario 2 – Shotover Primary School family currently living outside the enrolment scheme home zone

Family B lives in Allan Crescent since 2026. They have a daughter, Lexi, enrolled in Year 4 at Shotover Primary School. Family B previously lived in Jones Avenue when Lexi was enrolled. Lexi has a brother, Lochie who will start school in October 2027.

To determine if grandparenting applies, Family B will have to be able to answer ‘yes’ to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Shotover Primary School	Yes – Lochie lives in Allan Crescent which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Shotover Primary School at the time the amended enrolment scheme was implemented (expected to be end -2026 – exact date to be confirmed)	Yes – Lochie’s sibling Lexi was enrolled Shotover Primary School at the beginning of 2026.
The sibling already enrolled at Shotover Primary School, at the time the amendment is implemented (expected to be end - 2026) lives inside the home zone as it was <b>before</b> the amendment	<b>No</b> – Lexie lives in Allan Crescent which is outside the home zone as it was in end-2026 before the amendment.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	-
Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?	-

Because Family B answered ‘no’ to a question above, the Additional Entitlement to Enrol arrangement (grandparenting clause) would not apply to them.

As Lochie is living outside of Shotover Primary School home zone at the time of his enrolment, if he wanted to attend this school, would need to apply to enrol as an out of zone student. The number of spaces (if any) available for out of zone enrolments is determined by the School Board. If there were places available, and Lochie’s application was received in time, he would be in the first priority of out of zone enrolment due to the school not operating a Special Programme and he is a current sibling of a Shotover Primary School student.

Lochie will be entitled to enrol at Remarkables Primary School as he lives in the home zone for this school.

### Scenario 3 – Shotover Primary School family that moves out of the current enrolment scheme home zone

Family C live in Slope Hill Road. They have purchased land and are building in Frankton. They moved into their new home in August 2025. Family C have a daughter, Pania, who is in Year 4 at Shotover Primary School. Their son, Tane, will start school in September 2027.

To determine if grandparenting applies, Family C will have to be able to answer ‘yes’ to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Shotover Primary School	Yes – Tane will live in Frankton which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Shotover Primary School at the time the amended enrolment scheme was implemented (expected to be end -2026 – exact date to be confirmed)	Yes – Tane’s sibling Pania was enrolled at Shotover Primary School at the beginning of 2026.
The sibling already enrolled at Shotover Primary School, at the time the amendment is implemented (expected to be end-2026) lives inside the home zone as it was <b>before</b> the amendment	Yes – Pania lives at Slope Hill Road which is inside the home zone in end -2026.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	<b>No</b> – in September 2027 when Tane enrolls (ie starts school), he is living in Frankton which is outside the home zone before the amendment.
Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?	-

Because Family C answered ‘no’ to one of the questions above, the Additional Entitlement to Enrol arrangement (grandparenting clause) would not apply to them.

As Tane is living outside of Shotover Primary School home zone at the time of his enrolment, if he wanted to attend this school, would need to apply to enrol as an out of zone student. The number of spaces (if any) available for out of zone enrolments is determined by the Board of Trustees. If there were places available, and Tane’s application was received in time, he would be in the first priority of out of zone enrolment due to the school not operating a Special Programme and he is a current sibling of a Shotover Primary School student.

Tane will be entitled to enrol at Remarkables Primary School as he lives in the home zone for this school.
